**Course Description**  
This course is designed to start you on the road to communicative competence. “Communicative,” we mean that you will learn to express your own ideas and develop strategies for understanding spoken and written discourse—meaninging vocabulary lists and grammar rules. By “competence,” we mean that your acquisition of the language must show a high level of grammatical, lexical, and cultural accuracy. Our goal is not simply a list of rules and words, but real communication between speakers.

To achieve these goals, you have to engage in as many communicative exchanges as possible. The course will give you ample opportunity to do so, in small groups or with a partner, in direct interaction with me, in listening to dialogue between other native speakers on audiovisual media, in expressing your ideas in writing, and in understanding and discussing short texts.

- **Most classroom interaction will be in German**, because input and use are the chief engines of foreign language acquisition.
- **Active and consistent classroom participation** is crucial to your success at acquiring the language. A language cannot be “studied” in. So as to get the most out of this class, you need to constantly use and practice the language.
- **Outside the classroom**, you are expected—and will need to—spend at least 12 hours per week, which corresponds to two hours each day, doing your homework, and learning and practicing your grammar and vocabulary.
- Make sure to always bring a **hardcopy** of your written **homework** to class. Assignments need to be **double-spaced** and have **margins of about 3 cm** on each side for comments and corrections.
